

Sumi Console

The Sumi Console takes its name and form from ink calligraphy, where a single stroke of the brush can hold both weight and motion. The same quality shapes the console’s structure: each curve reads like ink caught mid-stroke, fluid and unbroken. Designed by our award-winning designer, Apiwat Chitapanya, the piece is hand-cast in brass, then polished to a natural sheen. Choose between a solid brass tabletop for a more substantial, sculptural presence, or a glass tabletop that creates an open, lighter profile while revealing the form of the brass base beneath.
